GERMANTOGO 

STEP BY STEP TO FLUENCY

German to Go stands out thanks to its coherent lesson structure and straightforward, **proven method** for teaching German.

Our unique approach combines clear and engaging video lessons with authentic materials – a recipe for success in **all four skill levels!**

You will appreciate the **simple flow** of the course...

and, more importantly, feel **strongly motivated** by your own rapid success!

Video lessons... with a personal touch!

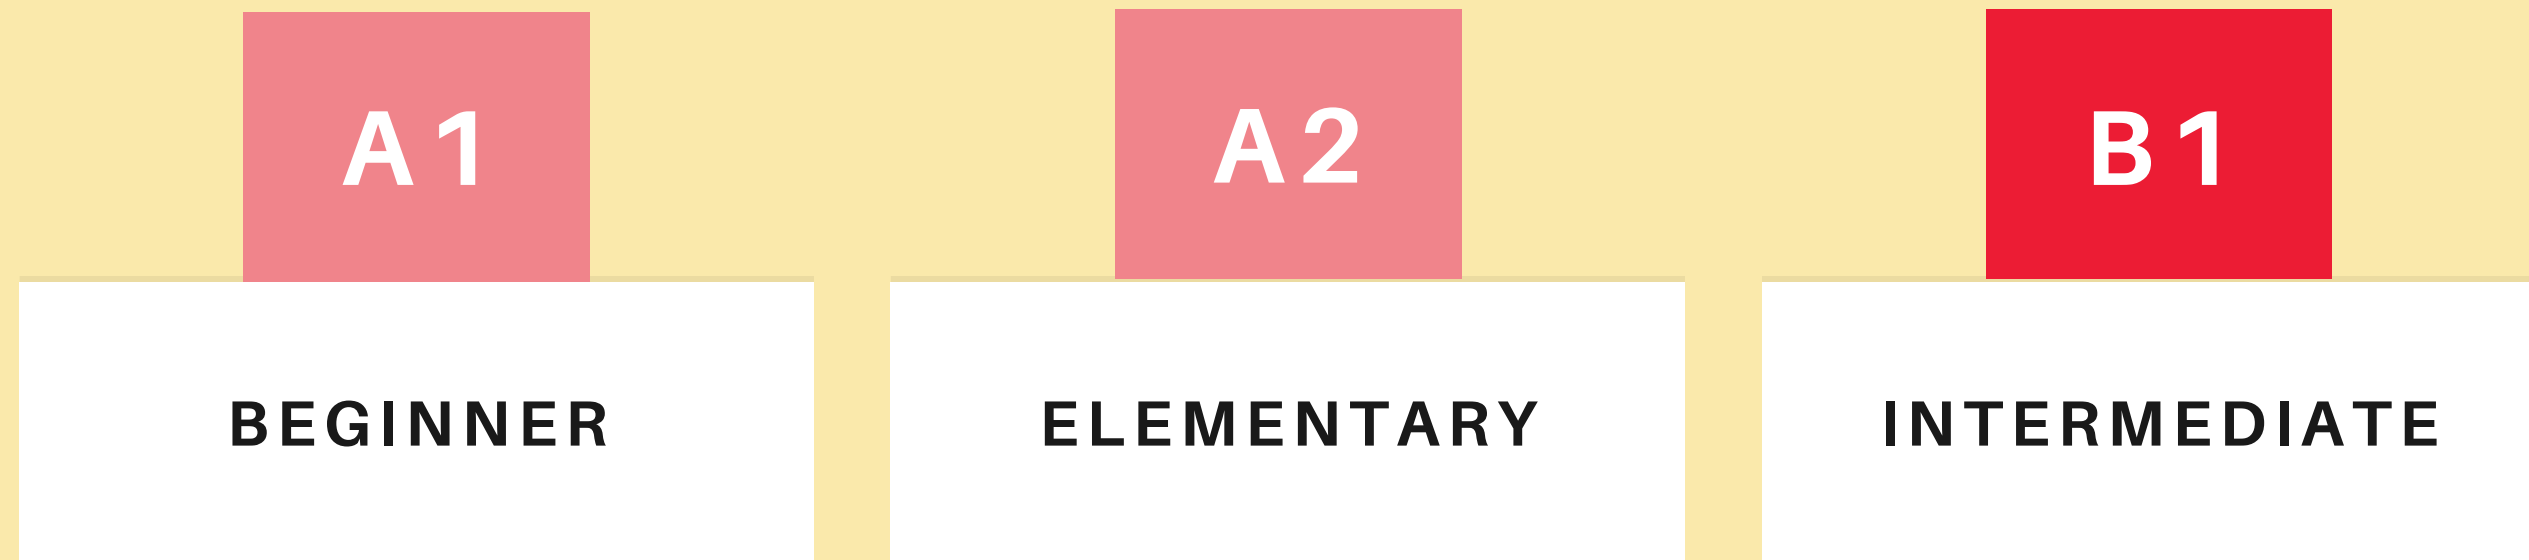

**A cohesive and progressive program;
an engaged and present creator.**

Everything was created by one single person! Juliane Klingenberg Nery, a passionate language learner herself, is **highly present throughout the entire program** and always eager to guide her students on their journey towards fluency.

Juliane studied '*Modern Foreign Languages*' in France, England, and Germany, and has also lived in Brazil and Canada. She initially created the program for her one-on-one students. Over the years, it has developed into an **internationally appreciated method** for making quick and painless progress in the German language.

LANGUAGE LEVELS

The course follows the **European Framework for Languages** and will prepare students well for passing any language exam.

"In two months, I went from knowing basically nothing about the language to passing my A1 exam with 94%." – Gavin, South Africa

*"If you put the hours in with German to Go, then it WILL pay off."
– Scott, Scotland*

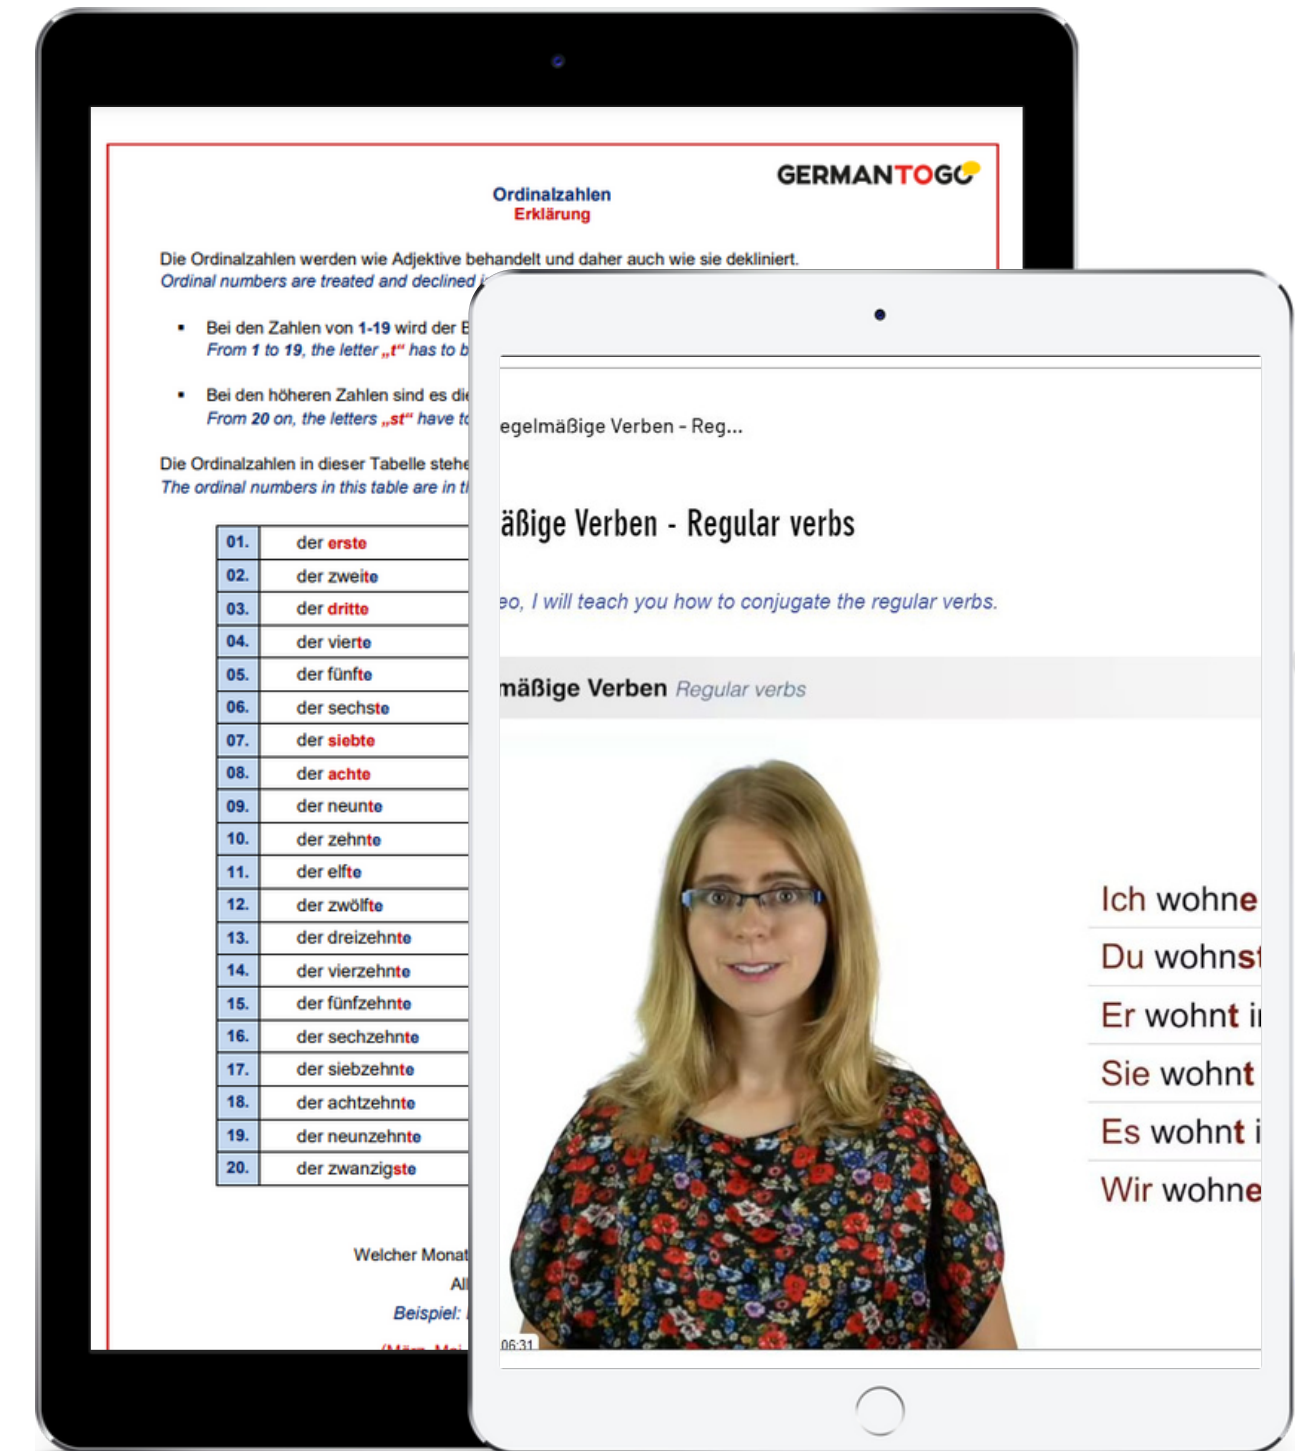

Effective use of time

German to Go students do not lose time playing around with games. The videos, as well as supporting materials, are useful and efficient from the beginning to end. Grammar is explained in a unique way that is **straightforward and clear**. Key concepts are reviewed frequently to fuel steady progress.

"I saw Juliane and I was blown away by the way she explains German, I was hooked! This is it, I finally found it." – Rakan, Jordan

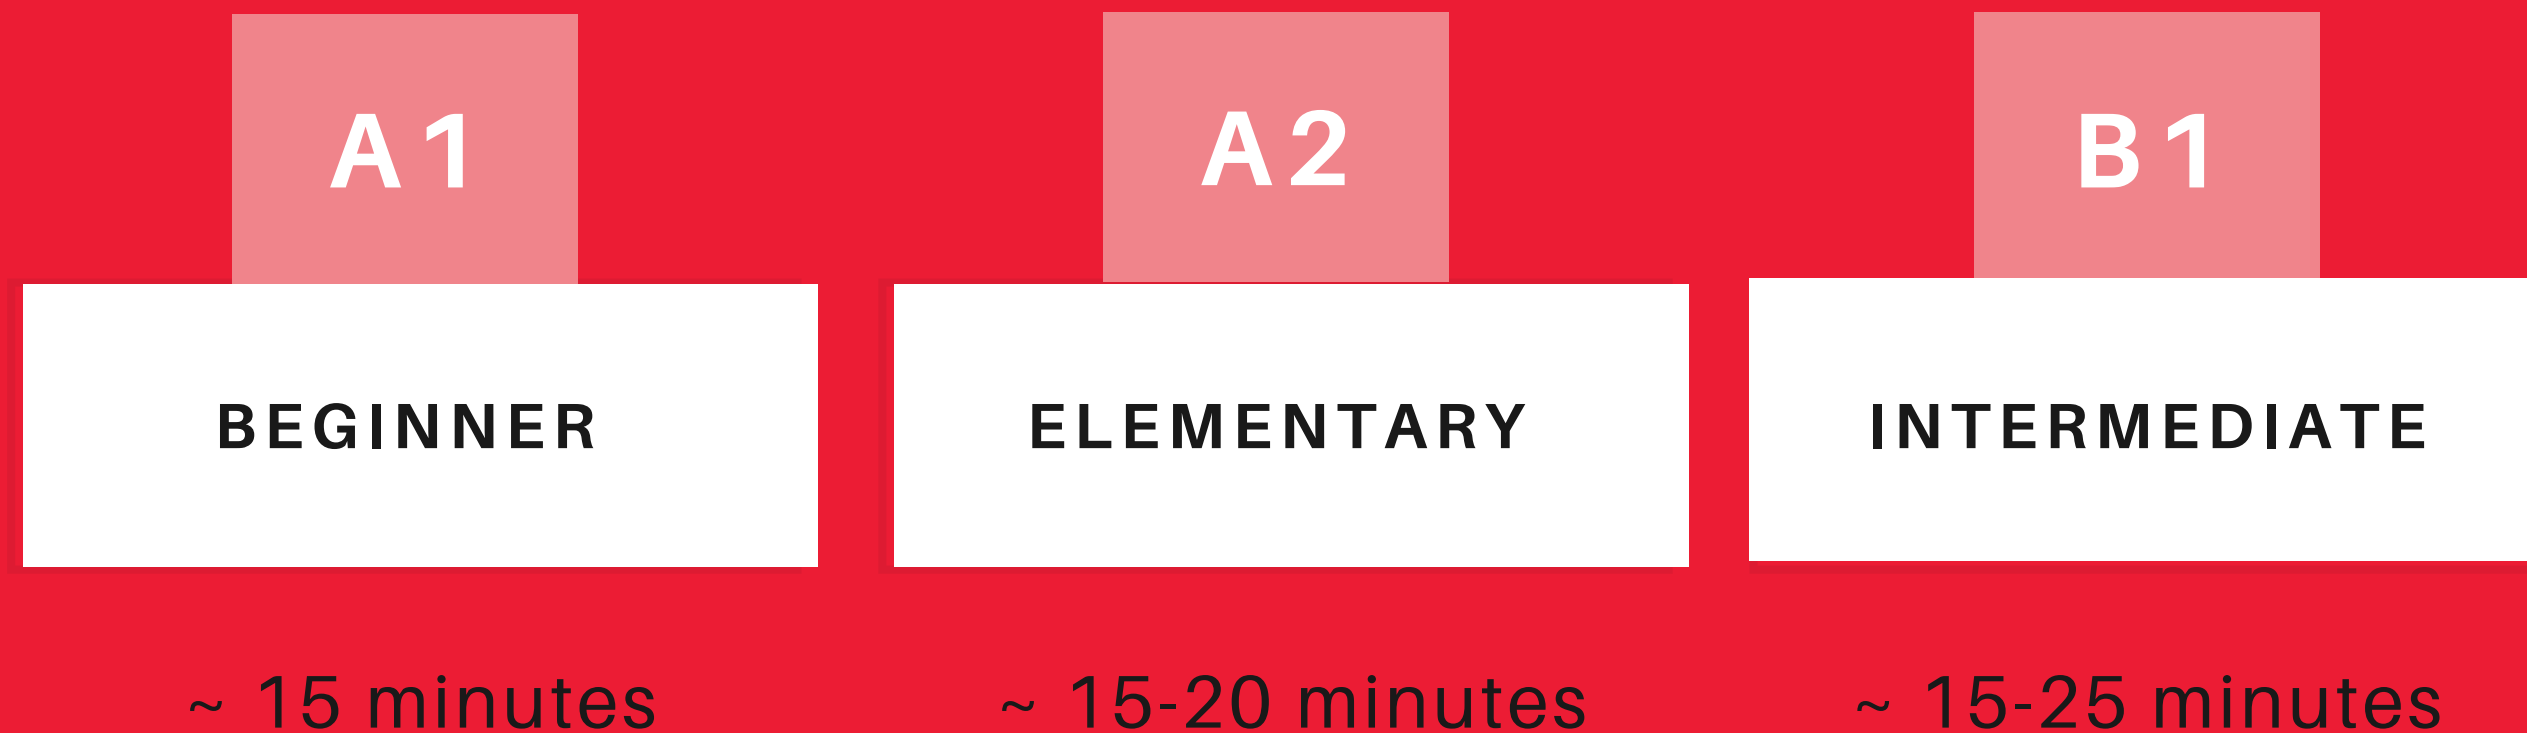

"She knows how to present the difficult parts in a way that doesn't put you off or scare you away." – Todor, Bulgaria

One level in 5,5 months

By following the suggested curriculum of 2-5 videos per day, one level will be completed within 23 weeks - in less than 6 months! Depending on their schedules, students can also move faster or slower.

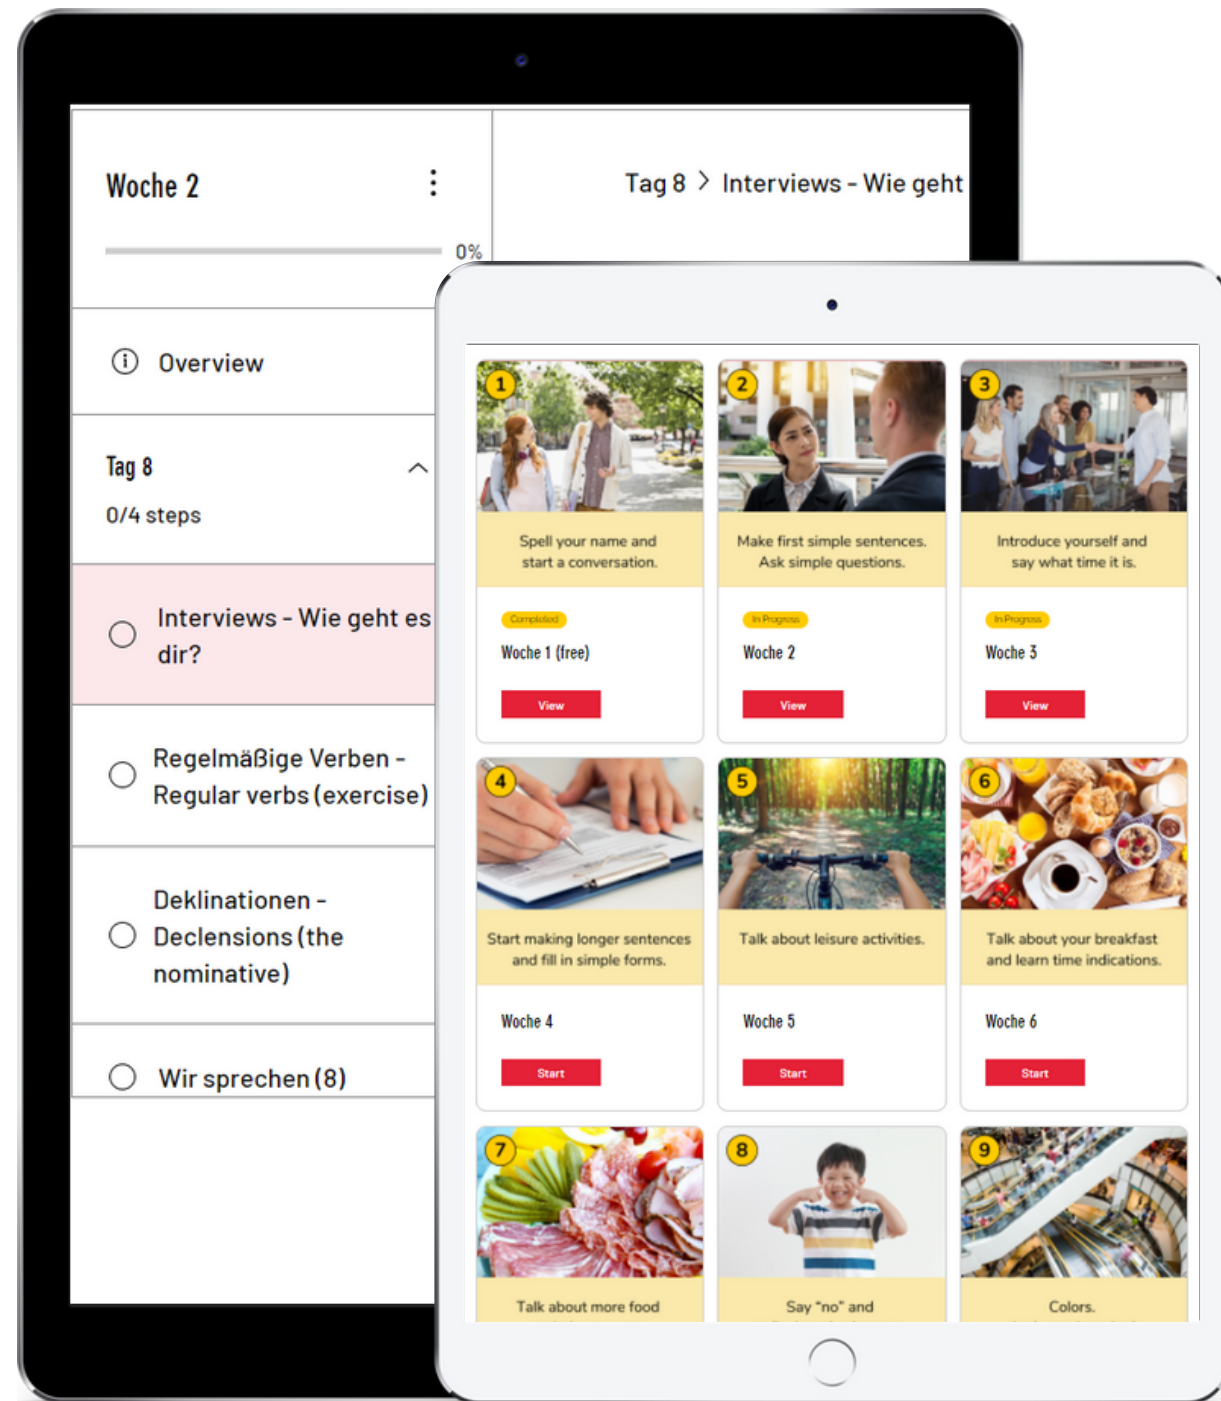

Video material / day:

Plus individual self-study time: for the best results, it is recommended that students spend some additional time on learning vocabulary, reviewing notes, reading the questions / answers section and doing additional practice materials.

Clear structure and content

All videos build on the previous lessons in terms of grammar and vocabulary. The level of difficulty increases in a natural and progressive manner.

"The lessons are strategically sequenced step-by-step with key vocabulary and grammar constantly reviewed, helping the student build on prior skills and internalize the syntax. Her technique makes it possible for me to retain the material and helps me gain confidence." – Diana, USA

Speak from day one!

Throughout the course, students are **encouraged to speak** – whether it's through numerous speaking prompts or from the interactive design of the videos. Pauses between the questions allow students to **practice saying the answers aloud** in real time during the lesson. This increases students' confidence and **speeds up their active language learning**.

"By this practice, I unconsciously improved my German speaking skills, so much that even the examiners were impressed." – Premanand, India

"One has to be an active participant, rather than a passive listener, in every lesson she teaches, like in a one-to-one session."

– Lyudmila, UK

Community "Sprachcafé"

Every Saturday, our German to Go online Zoom room is open for students to **meet and chat together** in a relaxed atmosphere.

"It helps you to come out from your shell and to just speak out and not to be afraid to speak, to make mistakes." – Petr, Czech Republic

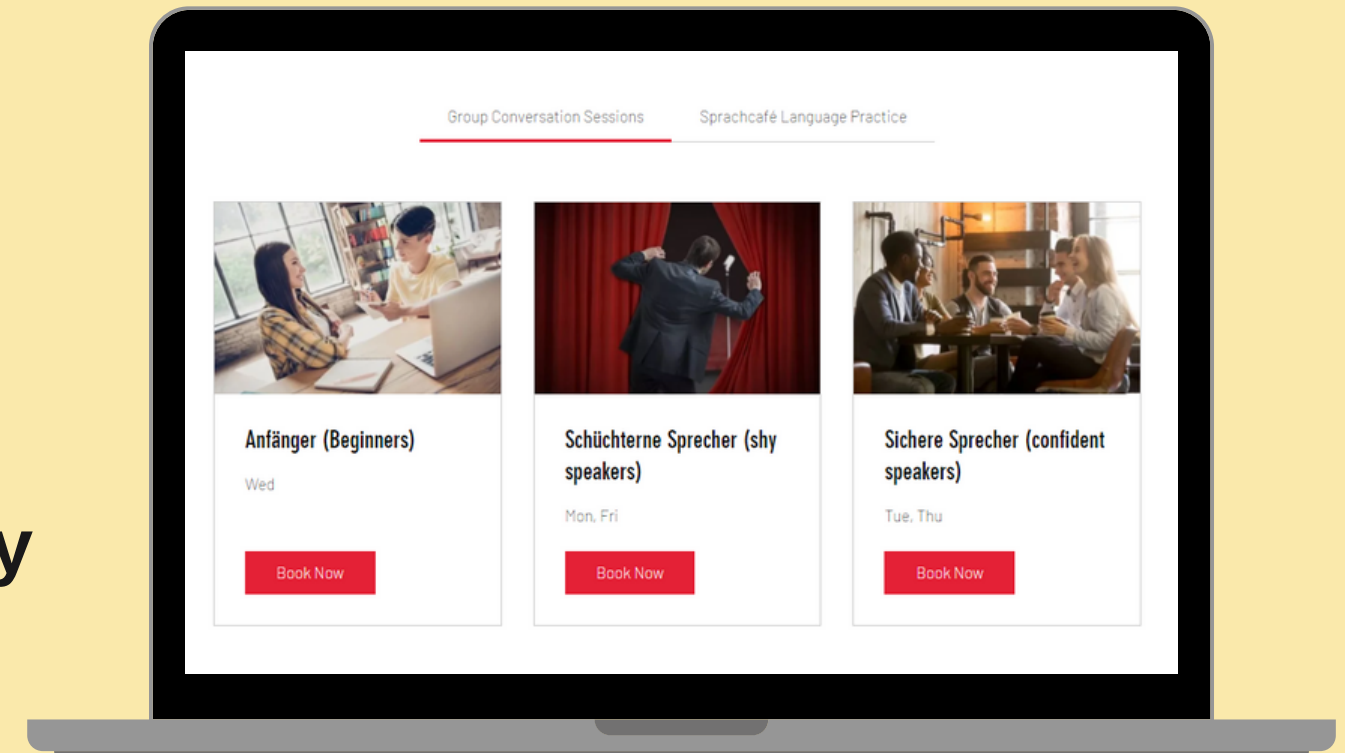

"It is really uplifting to be around all these people from different countries, different political systems, different languages, different religions. And we all help each other out, because we just want to learn German." – Heather, USA

SHORT TEXTS

Beim Frisör

Ich war schon ewig nicht mehr beim Frisör, weil ich meine Haare lang wachsen lassen will. Aber jetzt ist es wieder nötig und ich kann es nicht länger hinauszögern. In letzter Zeit sind eine Haare ganz trocken und strohig geworden und ich habe Spliss. Deshalb muss ich mir wenigstens die Spitzen schneiden lassen. Und ich überlege, ob ich mir auch einen Pony schneiden lassen soll. Das würde mich wahrscheinlich etwas jünger machen. Aber was, wenn es nicht gut aussieht? Der Termin ist morgen. Bis dahin werde ich mir das nochmal genauer überlegen und vielleicht auch die Frisörin fragen, was sie dazu meint.

VOKABELN

 der Frisör, die Frisöre – the hairdresser

Many online courses do *not* emphasize the importance of written practice enough. Actively engaging with the language is key to success!
